

Remote Learning Conduct

Remember that our School Ethos "Care, Courtesy and Consideration" applies at all times when using online learning technology.

Students should adhere to the Code of Conduct as outlined in the Student Planner. This applies equally in the context of Remote Learning.

Stay safe online by keeping your personal details private, and following advice given by your teachers.

Netiquette

If you are required to post comments please ensure that you use formal language and communicate as you would in the normal classroom.

Think before you post. Posts should be positive and related to classwork. You should be proud of everything you post online as it can be viewed by teachers and classmates.

A word about Private Comments in Google Classroom:

When you use the Private Comment feature the comment is posted directly to your teacher ONLY. If you use this in error, please delete the comment immediately.

Google Classroom and other remote tools are provided for your educational use and should be treated as an extension of the classroom.

The School's Acceptable Use policy applies when using Google Classroom:

<http://www.lumenchristicollege.co.uk/uploads/files/Acceptable%20Use%20of%20the%20Internet%20Policy%2018-20.pdf>

Please confirm you have read the AUP, signed the relevant page in your Homework Diary and will continue to use Remote Learning technology safely, showing consideration for others and to improve your learning. *

I will continue to use Remote Learning technology safely, showing consideration for others and to improve your learning.
